TECHNICAL SKILLS

Languages: Java 8+ (Streams, Lambdas, Functional Interfaces), J2EE, JavaScript, C++, PHP

Frameworks & Databases: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate, QueryDSL, Microservices, REST API, MySQL, Indexing, Query Optimization, Angular, AWS, Git

Testing & Quality: Code Reviews, Debugging, Refactoring, Agile/Scrum

Concepts: OOPs, Data Structures & Algorithms, Design Patterns, SOLID, DBMS

PROFESSIONAL EXPERIENCE

Software Engineer | eGeneration PLC, Dhaka Jul 2024 - Present

- Built and maintained **Java 13 Spring Boot Microservices** for POS Bill, improving billing accuracy and enabling real-time billing for users.
- Develop and maintain optimized microservice and monolithic full-stack solutions using **Spring Boot, Angular, and Java**, enhancing application performance and user experience
- Design and implement robust technology for high-traffic enterprise applications, ensuring scalability and reliability.
- Optimize database performance using advanced JPA and various querying techniques, reducing query execution time for large datasets.
- Utilize **Jira** for issue tracking and Agile development, prioritizing tasks to meet project deadlines.

Software Engineer | IBCS Primax Software Limited, Dhaka Jun 2021 - Jul 2024

- Designed RESTful APIs with Spring Security and documented using Swagger.
- Developed and maintain some module like: **HRM, BOF-Security, Employee Health Management**
- Leveraging Lombok, and custom annotations to simplify development
- Developed so many reports using **Jasper Studio** and written optimized query using PostgreSQL

Junior Software Engineer | Confidence Software Ltd., Dhaka Jul 2019 - May 2021

- Built automated premium calculation system for general insurance.
- Design and developed a single module of VAT application using **Java Spring Boot**
- Developed token management system using **PHP**, it reduce hours of calling system.

PROJECTS

egHealth (Java, Angular, Spring Security, Spring Data JPA/Hibernate, JasperReports, Redis, QueryDsl, PostgreSQL, PL/SQL)

- This comprehensive hospital management system for SOMCH delivers end-to-end automation through its core modules:
 - Patient Management:** Streamlined OPD/IPD, admission, discharge, and electronic medical records.
 - Clinical Workflow:** Digital prescriptions, doctor scheduling, and appointment management.
 - Administrative & Financial:** Integrated pharmacy inventory, automated billing, and reporting.All modules operate on a single, unified platform, actively enhancing the efficiency and quality of care in all SOMCH medical facilities.

BOF-ERP (Java, Angular, Spring Security, Spring Data JPA/Hibernate, JasperReports, PostgreSQL, PL/SQL)

- This comprehensive ERP for BOF delivers end-to-end automation through its core modules:
 - Patient Management:** Streamlined OPD, admission, Prescription, Pharmacy Store Management.
 - BOF Security:** Can controll entry and exit of the visitors and capture image of each visitors
 - HRM:** Integrated employee management system, Inventory system and reporting.
- Reduce a specific api calling time up to 500%

Digital Pourashava Tax Management (PHP, Laravel, Blade, jQuery, MySQL, Mpdf)

- Design and develop Tax assessment, collection and show various reports as per user requirement

EDUCATION

Institute of Science and Technology, Dhaka — MCSE 2018 - 2019 | CGPA: 3.34/4.00

Institute of Science and Technology, Dhaka — B.Sc. CSE 2014 - 2018 | CGPA: 3.27/4.00

ACHIEVEMENTS

- Winner of Inter-College Programming Competition at IST
- Solved 100+ problems on LeetCode/Codeforces
